Guide for

School Leader's Account

A quick guide to get you started! ►

Welcome to your school's academic delivery platform. As a school leader on the platform, you can get insights on the activities of teachers and students. You can also generate real-time reports to evaluate the school's academic pulse, and communicate with parents including sending them eConsent forms.

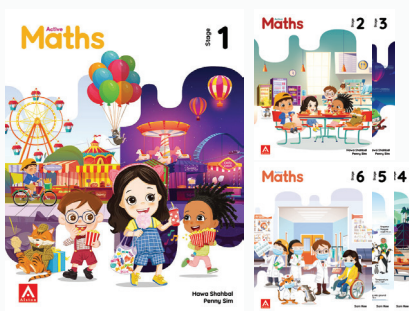

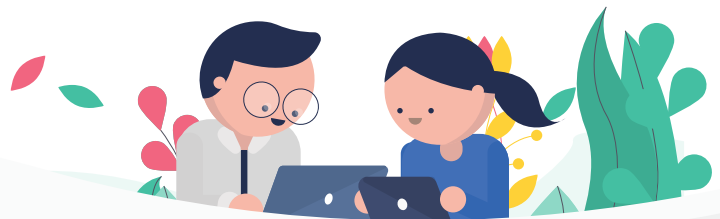

There are a lot of things you can do, and this manual will get you started.

Understanding what **Alston Digital** can provide to School Leaders

As a school leader, you need to make decisions and intervene at the right time. Alston Digital provides you with deep insights into the academic pulse of your school so as to aid your decision-making process. Alston Digital uses advanced educational technology to help in your decision making process.

Monitor Classes

Get detailed reports of class-based academic activities and view comparative statistics between them

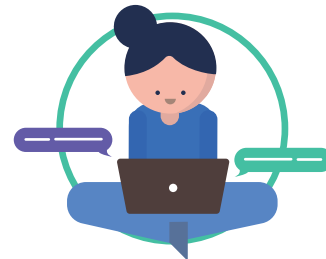

Insights into Students

Get detailed reports on individual students, review their academic activities and performances

Insights into Teachers

Get detailed reports on the performance and engagement of individual teachers using our platform in your school

Make Announcements

Make announcements to teachers/students/parents, and even send and receive eConsent or survey forms electronically

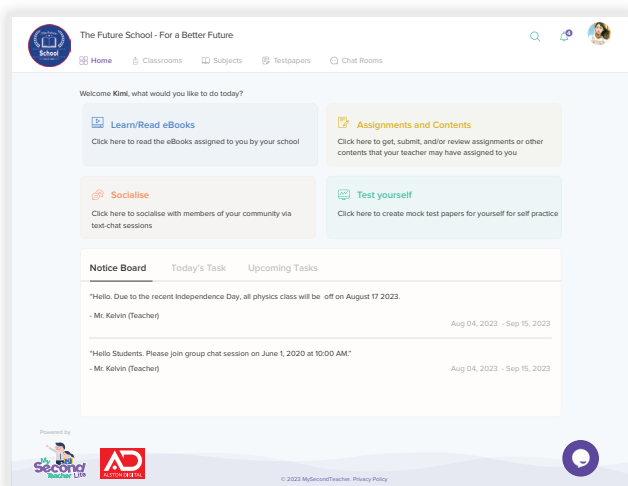

School-based Branding

The ability to differentiate one's school from another school in the eyes of the general public is a key responsibility of the school leader. Many schools use generic platforms and there's no way to differentiate one school from another on these platforms. We are different. **Alston Digital** allows you to prominently brand the platform based on your school's name, logo and motto. This way, your students, parents and teachers will be accessing your school's eLearning platform.

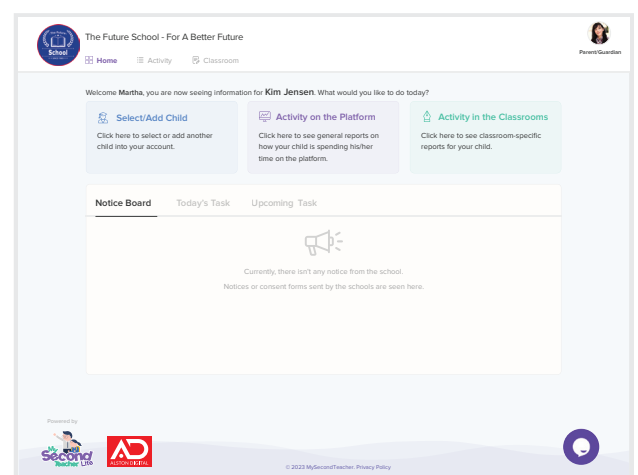

Upload your school's logo and motto. This is viewed by students, parents and teachers whenever they log in to the platform.
