

# Feature Update Release

(For Teacher)

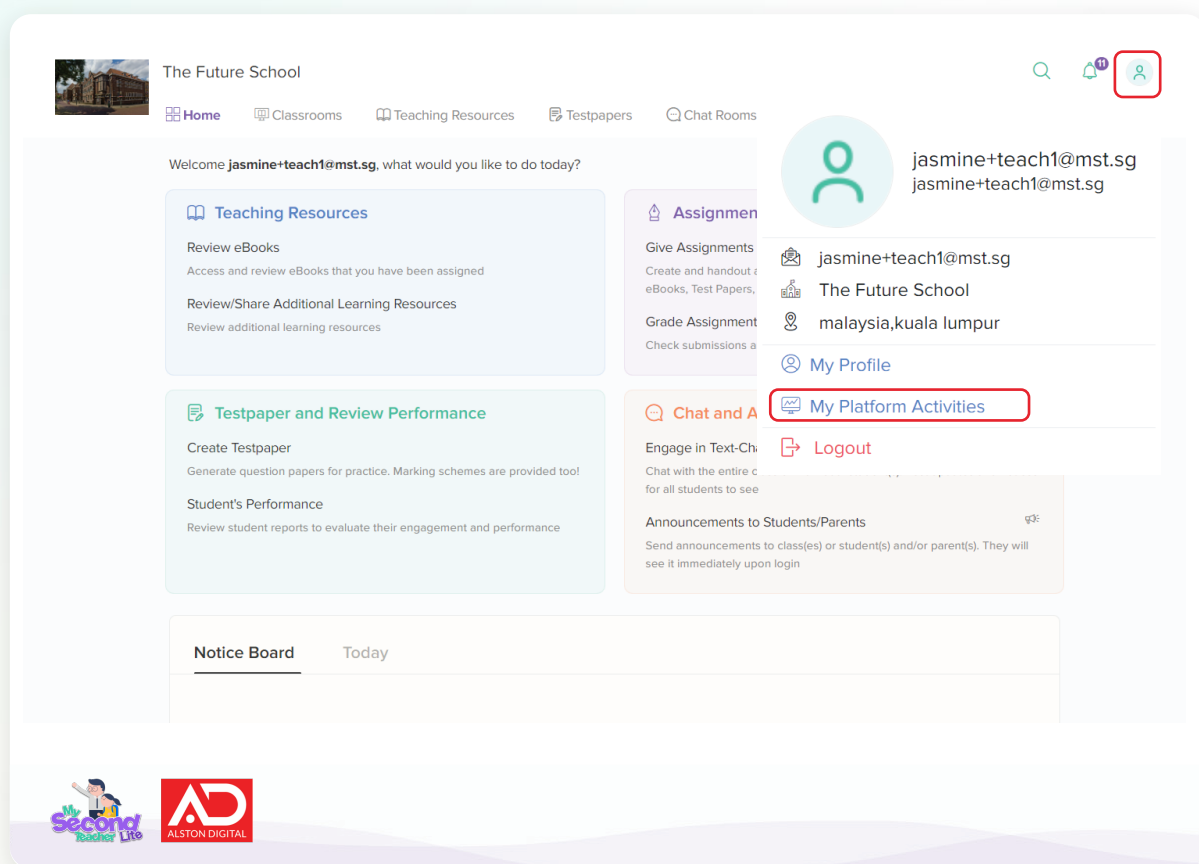

# Update in Notification Count from 20 to 50

Previously, teachers were able to view just 20 notifications in the notification bar. As a result, if there were more than 20 notifications in a short span of time, the notification bar would not display all of them, and were therefore likely to be missed. However, with the recent update, teachers can now view up to 50 notifications at a time.

# My Platform Activities

While teachers' activities on the platform could only be viewed by their school leaders before, teachers themselves will now be able to view them through 'My Platform Activities' located in the profile icon section. My Platform Activities displays teachers' activities on the platform i.e. the creation of sessions, testpapers or assignments in two views: Simplified and Detailed View.

## Feature Release

Additionally, teachers can also use filters to look at their activities from a specific period of time, and they also have the ability to view specific activities relating to particular features such as eBooks, assignments, etc.

A search bar is located on the right side of the navigation bar. Below the navigation bar, there is a filter section with a red border around the 'Start Date', 'End Date', and 'Activity Types' fields. The 'Start Date' field is empty, the 'End Date' field is empty, and the 'Activity Types' field has a dropdown arrow. To the right of the filter section, there is a user profile icon with the initials 'J' and the email address 'jasmine+teach1@mst.sg'.
